

VISHAL CHOUDHARY

FLUTTER DEVELOPER -1 YEAR EXPERIENCE

Panchkula , haryana | vc46320@gmail.com | 7591033165

SUMMARY

Flutter Developer with experience in building high-performance cross-platform mobile applications for Android and iOS using Flutter and Dart. Skilled in creating responsive UIs, integrating REST APIs, implementing state management solutions such as GetX and Riverpod, and working with Firebase services. Experienced in app deployment, performance optimization, debugging, and collaborating with cross-functional teams to deliver scalable and user-friendly mobile applications. Passionate about writing clean, maintainable code and continuously learning new technologies.

TECHNICAL SKILLS

Programming Languages: Python, Dart

Frameworks: Django, Flutter

Backend & APIs: REST APIs, JSON, Supabase, Firebase

Database: PostgreSQL (Supabase), MySQL

Tools & Technologies: Git, GitHub, VS Code, Android studio, AI, Antigravity

APP deployment (Apple store , Play store , Test flight)

PROFESSIONAL EXPERIENCE

Vision vivante private limited

Aug2025-July2026

As a Junior Flutter Developer, I develop and maintain cross-platform mobile applications for Android and iOS using the Flutter framework and Dart programming language. My responsibilities include designing responsive and user-friendly interfaces, integrating REST APIs, implementing state management with GetX and Riverpod, and integrating Firebase services such as Authentication, Cloud Messaging, and Crashlytics. I collaborate with backend developers, designers, and QA teams to deliver high-quality applications, optimize app performance, resolve bugs, and ensure smooth deployment to the Google Play Store and Apple App Store while following clean coding practices and Agile development methodologies.

PROJECTS

TOWTRACE - VEHICLE TOWING & TRACKING APP

Developed a TowTrace mobile application using Flutter to assist users in locating and tracking towed vehicles. Implemented features such as real-time location tracking, request handling, and user-friendly interface for seamless navigation and vehicle status updates.

BID4STYLE - E-COMMERCE MOBILE APPLICATION

Developed Bid4Style, an e-commerce mobile application using Flutter that allows users to browse products, manage cart, and interact with the platform. Implemented role-based authentication with separate login systems for customers and admin, enabling efficient product management and user operations.

MARISPEAKS

Developed a real-time Push-to-Talk (PTT) communication application using Flutter, enabling instant voice communication between users and groups through low-latency WebSocket-based audio streaming. Integrated Firebase Authentication, REST APIs, and FCM/APNs push notifications, while implementing group management, background audio communication, and platform-specific optimizations to deliver a reliable, high-performance experience on both Android and iOS.

ONESTOP DELIVERY APP & Customer

Developed a Flutter-based delivery application for delivery partners with features including order assignment, real-time order status updates, GPS/location tracking, navigation, earnings management, delivery history, and profile management. Integrated REST APIs and push notifications to provide efficient order handling, real-time synchronization, and a smooth delivery experience on Android and iOS.

EDUCATION

Bachelor in Computer Applications (BCA)

Aug2020-july2023

MCM DAV College, Kangra (HP)

CGPA : 7.69

Master of Computer Applications (MCA)

Aug2023-july2025

PG Degree College, Dhramshala (HP)

CGPA : 7.39
